<request>

You are working on an issue in the 'mitchelllisle/sparkdantic' repository.

<repository_context>
I've cloned the repository in the directory /home/runner/work/sparkdantic/sparkdantic (not in /tmp/inputs). Always use absolute paths when referring to files in the repository.
</repository_context>

<current_datetime>2026-01-26T21:22:40.916Z</current_datetime>

Consider the following problem statement:

<problem_statement>
The GitHub Actions job in the 'sparkdantic' repository, specifically the 'Run Tests' workflow defined in .github/workflows/build-test.yaml, is failing due to an error related to the Python version. The error message from the failed job indicates: 'Version 3.9 with arch x64 not found. Available versions: 3.10.19 (x64)'. To resolve this issue, update the .github/workflows/build-test.yaml file to use a valid Python version, such as 3.10.19, instead of 3.9.
</problem_statement>

Implement the necessary changes to the repository so that the requirements specified in the <problem_statement> are met.

A **CI/Build Failure** has been mentioned in the problem statement, make sure to follow your instructions for addressing CI/Build Failures.
