<request>

You are working on an issue in the 'zouharvi/pearmut' repository.

<repository_context>
I've cloned the repository in the directory /home/runner/work/pearmut/pearmut (not in /tmp/inputs). Always use absolute paths when referring to files in the repository.
</repository_context>

<current_datetime>2025-12-03T16:13:46.671Z</current_datetime>

Consider the following problem statement:

<problem_statement>

This section details on the original issue you should resolve

<issue_title>pointwise.ts and listwise.ts share more common functionality and types</issue_title>
<issue_description>These two files are very similar but they don't share as much as they could. For example toolboxes could be much more shared as well as type defininitions etc. This would improve code quality.</issue_description>

Comments on the Issue (you are @copilot in this section)

<comments>
</comments>

</problem_statement>

Implement the necessary changes to the repository so that the requirements specified in the <problem_statement> are met.

Ensure that you lint, build and test early and iteratively to validate each code change thoroughly.
