This section details on the original issue you should resolve

<issue_title>Circular reference error in openapi spec</issue_title>
<issue_description>**Describe the bug**

Circular reference error

To Reproduce Steps to reproduce the behavior:

```ts
const spec = {
  openapi: '3.0.0',
  paths: {
    '/test': {
      post: {
        requestBody: {
          required: true,
          content: {
            'application/json': {
              schema: {
```

```
              $ref: '#/components/schemas/RequestBody',
            },
          },
        },
      },
      responses: {
        '200': {
          description: 'ok',
          content: {
            'application/json': {
              schema: {
                type: 'object',
                properties: {
                  ok: { type: 'boolean' },
                },
              },
            },
          },
        },
      },
    },
  },
},
components: {
  schemas: {
    RequestBody: {
      type: 'object',
      properties: {
        filters: {
          type: 'array',
          items: {
            anyOf: [
              { $ref: '#/components/schemas/FilterGroup' },
              { $ref: '#/components/schemas/SoloFilter' },
            ],
          },
        },
      },
    },
    FilterGroup: {
      type: 'object',
      required: ['operator', 'filters'],
      properties: {
        operator: {
          type: 'string',
          enum: ['AND', 'OR'],
        },
```

```
          filters: {
            type: 'array',
            items: {
              anyOf: [
                { $ref: '#/components/schemas/FilterGroup' },
                { $ref: '#/components/schemas/SoloFilter' },
              ],
            },
          },
        },
      },
      SoloFilter: {
        type: 'object',
        required: ['field'],
        properties: {
          field: {
            type: 'string',
          },
        },
      },
    },
  },
} as const;
type TOAS = NormalizeOAS<typeof spec>;
const client = createClient<TOAS>({ endpoint: 'http://
example.com' });
const simpleFilters = [{ field: 'targetIp', comparator: 'eq',
value: '1.2.3.4' }];
const body = {
  filters: simpleFilters,
};

// this errors.. notably it doesn't if i pass the body directly
as a literal and not from a variable
void client['/test'].post(body);
```

Expected behavior

no error

Environment:

- OS:
Mac
- NodeJS:
24

```
**Additional context**

I'm on the latest feTS
