<request>

You are working on an issue in the 'Azure/azure-sdk-for-go' repository.

<repository_context>
I've cloned the repository in the directory /home/runner/work/azure-sdk-for-go/azure-sdk-for-go (not in /tmp/inputs). Always use absolute paths when referring to files in the repository.
</repository_context>

<current_datetime>2026-01-08T15:06:19.484Z</current_datetime>

Consider the following problem statement:

<problem_statement>
Add @j7nw4r (Johnathan Walker) as a code owner for Event Hubs SDK files in the CODEOWNERS file.

Task
Append the following two-line block to the end of `.github/CODEOWNERS`:

```
# Add Johnathan Walker as code owner for Event Hubs SDK
/sdk/messaging/azeventhubs/* @j7nw4r
```

Requirements
- Do NOT modify any existing lines in the CODEOWNERS file
- Only append the two-line block at the end of the file
- Ensure there is a blank line before the comment if the file doesn't end with one

Context
This mirrors the style of existing azure-sdk-for-js PR where @j7nw4r is already listed as a code owner for Event Hubs. This is a minimal change to add code ownership for Event Hubs SDK

files.
</problem_statement>

Implement the necessary changes to the repository so that the requirements specified in the <problem_statement> are met.
