You are working on an issue in the 'devstress/FlinkDotnet' repository.

<repository_context>
I've cloned the repository in the directory /home/runner/work/FlinkDotnet/FlinkDotnet (not in /tmp/inputs). Always use absolute paths when referring to files in the repository.

Consider the following problem statement:

<problem_statement>
Fix all the build warnings: Run .NET Unit Tests: FlinkDotNet/FlinkDotNet.DataStream.Tests/StreamExecutionEnvironmentTests.cs#L745
Async-iterator 'StreamExecutionEnvironmentTests.TestSourceFunction.RunAsync(CancellationToken)' has one or more parameters of type 'CancellationToken' but none of them is decorated with the 'EnumeratorCancellation' attribute, so the cancellation token parameter from the generated 'IAsyncEnumerable<>.GetAsyncEnumerator' will be unconsumed
Run .NET Unit Tests: FlinkDotNet/FlinkDotNet.DataStream.Tests/SourceFunctionEdgeCasesTests.cs#L352
Async-iterator 'SourceFunctionEdgeCasesTests.TestSourceFunction<T>.RunAsync(CancellationToken)' has one or more parameters of type 'CancellationToken' but none of them is decorated with the 'EnumeratorCancellation' attribute, so the cancellation token parameter from the generated 'IAsyncEnumerable<>.GetAsyncEnumerator' will be unconsumed
Run .NET Unit Tests: FlinkDotNet/FlinkDotNet.DataStream.Tests/

Implement the necessary changes to the repository so that the requirements specified in the <problem_statement> are met.

Ensure that you lint, build and test early and iteratively to validate each code change thoroughly.
