<request>

You are working on a task in the 'yihui/gglite' repository.

<repository_context>
I've cloned the repository in the directory /home/runner/work/gglite/gglite (not in /tmp/inputs). Always use absolute paths when referring to files in the repository.
</repository_context>

<current_datetime>2026-04-02T07:43:29.490Z</current_datetime>

Consider the following problem statement:

<problem_statement>
how can we make both `|>` and `+` work for this package? ggplot2 only supports +, but i want to support both
</problem_statement>

First, determine whether the <problem_statement> requires code changes, an explanation, a plan, or analysis. Then follow the appropriate path:

If the task requires code changes:

If the task is a question or only requires creating a plan or analysis: respond directly without making code changes.
