# 58245da7-2e41-4eab-8358-3df0067d5

**<current>**

**<request>**

You have been given comments on the previous commits you made in the repository.

You are working on an issue in the 'microsoft/semantic-kernel' repository.

<repository_context>
I've cloned the repository in the directory /home/runner/work/semantic-kernel/semantic-kernel (not in /tmp/inputs). Always use absolute paths when referring to files in the repository.
</repository_context>

<current_datetime>2026-06-17T06:03:43.761+00:00</current_datetime>

Consider the following problem statement:

<problem_statement>

---
*This section includes details on the pull request with code changes you have already submitted to fix the problem above.*

<pr_title>
.Net: Bump esbuild, @vitejs/plugin-react and vite in /dotnet/samples/Demos/ProcessFrameworkWithSignalR/src/ProcessFramework.Aspire.SignalR.ReactFrontend
</pr_title>

<pr_description>
Removes <a href="https://github.com/evanw/esbuild">esbuild</a>. It's no longer used after updating ancestor dependencies <a href="https://github.com/evanw/esbuild">esbuild</a>, <a href="https://github.com/vitejs/vite-plugin-react/tree/HEAD/packages/plugin-react">@vitejs/plugin-react</a> and <a href="https://github.com/vitejs/vite/tree/HEAD/packages/vite">vite</a>. These dependencies need to be updated together.

Removes `esbuild`

Updates `@vitejs/plugin-react` from 4.3.4 to 6.0.2

<br>

Updates `vite` from 6.4.1 to 8.0.16

<br>

Dependabot will resolve any conflicts with this PR as long as you don't alter it yourself. You can also trigger a rebase manually by commenting `@dependabot rebase`.

<author>@moonbox3</author>
@copilot: fix the CI/CD failures. Also include js-yaml>=4.2.0, ws>=7.5.11, and mdast-util-to-hast>=13.2.1 in the same ReactFrontend package-lock/yarn lock updates if the resolver allows it, because open

Dependabot alerts still target those manifests.

---
The last **1** git commits in this branch are the changes you have made so far. Use those as your change commit history.
</problem_statement><rules_for_making_changes>
* Start by fully understanding <problem_statement> and the <comments> before making any changes. Treat <comment_old> comments as context only and do not make changes solely to satisfy them.
* Only act on <comment_new> comments that explicitly mention you (@copilot). To understand the context of comments that explicitly mention you, you may use other comments that do not explicitly mention you. Do not act on comments that don't explicitly mention you or reply to them, even if they are marked as <comment_new>.
* If the PR author has pushed back on or rejected a suggestion in a thread, do not act on that thread.
* For each comment you decide to act on, determine:
    - If it is a request for changes, a question on the code, or a suggestion.
    - Is it a general comment or praise.
* If there are no comments you need to address or reply to, you can stop now without exploring or explaining yourself.
* If the user's ask is not clear, you can reply to the comment and ask for clarification.
* If an action or explanation is needed, follow the steps below.
</rules_for_making_changes>

<system_reminder>

</system_reminder>

A **CI/Build Failure** has been mentioned in the problem statement, make sure to follow your instructions for addressing CI/Build Failures.

**<prompt>**

```
@copilot: fix the CI/CD failures. Also include js-yaml>=4.2.0,
ws>=7.5.11, and mdast-util-to-hast>=13.2.1 in the same ReactFrontend
package-lock/yarn lock updates if the resolver allows it, because
open Dependabot alerts still target those manifests.
