<current>

<request>

You have been given comments on the previous commits you made in the repository.

You are working on an issue in the 'AlgebraicJulia/Decapodes.jl' repository.

<repository_context>
I've cloned the repository in the directory /home/runner/work/Decapodes.jl/Decapodes.jl (not in /tmp/inputs). Always use absolute paths when referring to files in the repository.
</repository_context>

<current_datetime>2026-05-01T18:08:39.017+00:00</current_datetime>

Consider the following problem statement:

<problem_statement>

This section includes details on the pull request with code changes you have already submitted to fix the problem above.

<pr_title>
CompatHelper: bump compat for SciMLBase in [extras] to 3, (keep existing compat)
</pr_title>

<pr_description>
This pull request changes the compat entry for the `SciMLBase` package from `2` to `2, 3`.
This keeps the compat entries for earlier versions.

Note: I have not tested your package with this new compat entry. It is your responsibility to make sure that your package tests

pass before you merge this pull request.
</pr_description>

The last **2** git commits in this branch are the changes you have made so far. Use those as your change commit history.
</problem_statement><rules_for_making_changes>
* Start by fully understanding <problem_statement> and the <comments> before making any changes. You will only address the <comment_new> comments. Reply to new comments as you address them. Ignore comments that are not actionable or directed at you.
* For each new comment, determine:
    - If it a request for changes, a question on the code or a suggestion.
    - Is it addressed to you or someone else, e.g. "Hey @username, ..." or "@username can you ...".
    - Is it a general comment or praise.
* If there are no comments you need to address or reply to, you can stop now without exploring or explaining yourself.
* If the user's ask is not clear, you can reply to the comment and ask for clarification.
* If an action or explanation is needed, follow the steps below.

```
</rules_for_making_changes>

A **CI/Build Failure** has been mentioned in the problem
statement, make sure to follow your instructions for addressing
CI/Build Failures.
```
