You are working on a task in the 'microsoft/vsts-azurevm-extension' repository.

<repository_context>
I've cloned the repository in the directory /tmp/workspace/microsoft/vsts-azurevm-extension (not in /tmp/inputs). Always use absolute paths when referring to files in the repository.

Consider the following problem statement:

<problem_statement>
bump minor versions (+1) in Prod_migrated and test_migrated
</problem_statement>

First, determine whether the <problem_statement> requires code changes, an explanation, a plan, or analysis. Then follow the appropriate path:

If the task requires code changes:

If the task is a question or only requires creating a plan or analysis: respond directly without making code changes.
