<issue_title>[bug] fix CI error</issue_title>
<issue_description>see: https://github.com/casdoor/casdoor-go-sdk/pull/217, the CI check in that PR has failed: https://github.com/casdoor/casdoor-go-sdk/actions/runs/20647589111/job/59287251948?pr=217

buy-product API has been removed in Casdoor's PR: https://github.com/casdoor/casdoor/pull/4591

the new APIs are PlaceOrder() and PayOrder(), which is added in PR: https://github.com/casdoor/casdoor/pull/4583

so the test case should also be updated to use the new APIs
