<request>

You are working on a task in the 'dependabot/dependabot-core' repository.

<repository_context>
I've cloned the repository in the directory /home/runner/work/dependabot-core/dependabot-core (not in /tmp/inputs). Always use absolute paths when referring to files in the repository.
</repository_context>

<current_datetime>2026-06-15T12:26:09.169+00:00</current_datetime>

Consider the following problem statement:

<problem_statement>
create a pr with this information on it
</problem_statement>

First, determine whether the <problem_statement> requires code changes, an explanation, a plan, or analysis. Then follow the appropriate path:

If the task requires code changes:

If the task is a question or only requires creating a plan or analysis: respond directly without making code changes.

<prev_assistant>

Session paused: a tool permission request was not answered in time. Approve the tool in the conversation to resume from this point.
