<current>

<request>

You are working on a task in the 'Alexey-Lukin/silken_net' repository.

<repository_context>
I've cloned the repository in the directory /home/runner/work/silken_net/silken_net (not in /tmp/inputs). Always use absolute paths when referring to files in the repository.
</repository_context>

<current_datetime>2026-04-17T08:06:39.806Z</current_datetime>

Consider the following problem statement:

<problem_statement>
перед тим як робити, прочитай уважно документи в директорії docs/ від 00_00_ до 09_03 і також readme.md

треба оновити ці три файли, бо вони застарілі:
.github/copilot-instructions.md
CLAUDE.md
.cursorrules
</problem_statement>

First, determine whether the <problem_statement> requires code changes, an explanation, a plan, or analysis. Then follow the appropriate path:

If the task requires code changes:

If the task is a question or only requires creating a plan or analysis: respond directly without making code changes.
