<current>

<request>

You are working on an issue in the 'tudortimi/gradle-hdvl' repository.

<repository_context>
I've cloned the repository in the directory /home/runner/work/gradle-hdvl/gradle-hdvl (not in /tmp/inputs). Always use absolute paths when referring to files in the repository.
</repository_context>

<current_datetime>2026-04-13T08:35:59.610Z</current_datetime>

Consider the following problem statement:

<problem_statement>

This section details on the original issue you should resolve

<issue_title>Check for existence of SV headers before adding -incdir to the args files</issue_title>
<issue_description>If I have an empty `src/main/sv` folder the -incdir is still being added to the args file, the same happens for the exported headers in `src/main/sv_headers`. Only the directories need to exist to be added to the args file.</issue_description>

Comments on the Issue (you are @copilot in this section)

<comments>
</comments>
</problem_statement>

Implement the necessary changes to the repository so that the requirements specified in the <problem_statement> are met.
