<request>

You are working on an issue in the 'open-telemetry/opentelemetry-java-contrib' repository.

<repository_context>
I've cloned the repository in the directory /home/runner/work/opentelemetry-java-contrib/opentelemetry-java-contrib (not in /tmp/inputs). Always use absolute paths when referring to files in the repository.
</repository_context>

<current_datetime>2026-05-27T19:30:51.116+00:00</current_datetime>

Consider the following problem statement:

<problem_statement>
@copilot Fix the code for only this review comment.

When a review comment includes a suggested change, apply the suggestion exactly unless the instructions in the 'Additional instructions' section below indicate otherwise.

Do not make changes beyond what is described in the linked review comment, unless requested in the 'Additional instructions' section below.
</problem_statement>

Implement the necessary changes to the repository so that the requirements specified in the <problem_statement> are met.

<prompt>

@copilot Fix the code for only [this review comment](https://github.com/open-telemetry/opentelemetry-java-contrib/pull/2872#discussion_r3313278718).

When a review comment includes a suggested change, apply the suggestion exactly unless the instructions in the 'Additional instructions' section below indicate otherwise.

Do not make changes beyond what is described in the linked review comment, unless requested in the 'Additional instructions' section below.
