<pr_description>
Agentic Workflows Update

The `gh aw update` command was run automatically and produced the following changes:

- `.github/aw/actions-lock.json`

⚠ Lock Files Need Recompilation

After merging this PR, **recompile the lock files** using one of

these methods:

1. **Via @copilot**: Add a comment `@copilot compile agentic workflows` on this PR
2. **Via CLI**: Run `gh aw compile --validate` in your local checkout after merging

Pull request overview

Updates the Agentic Workflows action lockfile to pick up newer pinned action revisions produced by `gh aw update`.

Changes:
- Bumps `actions/setup-node` from `v6.2.0` to `v6.3.0` (with updated SHA pin).
- Bumps `github/stale-repos` from `v9.0.1` to `v9.0.2` (with updated SHA pin).

💡 <a>Add Copilot custom instructions for smarter, more guided reviews. Learn how to get started.

You can also share your feedback on Copilot code review. Take the survey.

The last **1** git commits in this branch are the changes you
have made so far. Use those as your change commit history.
</problem_statement>

Analyze and determine if action or explanation is needed
<rules_for_making_changes>
* Start by fully understanding <problem_statement> and the
<comments> before making any changes. You will only address the
<comment_new> comments. Reply to new comments as you address them.
Ignore comments that are not actionable or directed at you.
* For each new comment, determine:
    - If it a request for changes, a question on the code or a
suggestion.
    - Is it addressed to you or someone else, e.g. "Hey
@username, ..." or "@username can you ...".
    - Is it a general comment or praise.
* If there are no comments you need to address or reply to, you can
stop now without exploring or explaining yourself.
* If the user's ask is not clear, you can reply to the comment and
ask for clarification.
* If an action or explanation is needed, follow the steps below.
