<request>

You are working on an issue in the 'nodetool-ai/nodetool' repository.

<repository_context>
I've cloned the repository in the directory /home/runner/work/nodetool/nodetool (not in /tmp/inputs). Always use absolute paths when referring to files in the repository.
</repository_context>

<current_datetime>2026-01-19T16:18:58.475Z</current_datetime>

Consider the following problem statement:

<problem_statement>
in BootMessage we want to show all providers and how to sign up, primarily Kie.ai Fal.ai and Huggingface . make it look less like an ad.
</problem_statement>

Implement the necessary changes to the repository so that the requirements specified in the <problem_statement> are met.

<prev_assistant>

I've successfully completed the task. Here's a summary of what was done:

Summary

The `BootMessage` component in the Electron app has been redesigned to show all supported AI providers in an informational, non-promotional format.

Changes Made

`electron/src/components/BootMessage.tsx`:
- Replaced the `KiePromotion` component (which had a promotional carousel featuring Kie.ai models) with a new `ProviderInfo` component
- The new component displays three providers equally: **Kie.ai**, **Fal.ai**, and **Hugging Face**
- Each provider card shows:
  - Provider name
  - Brief description of what they offer
  - Capability tags (e.g., "Video Generation", "Image Models")
  - A neutral "Get API Key →" button that opens their signup page
- Removed useState, useEffect, and useCallback hooks that were only used for carousel auto-play
- Simplified the code by removing the model carousel and promotional messaging

`electron/src/components/index.css`:
- Replaced the flashy Kie.ai promotional styles with neutral, informational styling
- Removed gradient backgrounds, carousel animations, and prominent CTA buttons
- Added clean, consistent card styling for the provider grid
- Made the design responsive with media queries for smaller screens

Before vs After
- **Before**: Promotional carousel showcasing Kie.ai models with flashy gradients, auto-rotating slides, and a prominent "Get Your API Key at Kie.ai" call-to-action
- **After**: Clean grid showing all three providers equally with neutral styling, factual descriptions, and subtle signup links

Consider the following problem statement:

<problem_statement>

This section includes details on the pull request with code changes you have already submitted to fix the problem above.

<pr_title>
Redesign BootMessage to show all providers without promotional styling
</pr_title>

<pr_description>
The BootMessage component during installation was showing a promotional carousel focused on Kie.ai models. This redesigns it to display all supported providers (Kie.ai, Fal.ai, Hugging Face) in a neutral, informational format.

Changes

- **Replaced promotional carousel** with a clean 3-column provider grid
- **Each provider card displays**: name, description, capability tags, and signup link
- **Removed**: auto-rotating slides, gradient backgrounds, promotional CTAs, and "Featured Models" messaging
- **Simplified component**: removed useState/useEffect/useCallback hooks that powered carousel animations

  <author>@georgi</author>
  extend the carousel to include https://replicate.com/ and
  OpenAI, OpenRouter, Anthropic, Cerebras, Gemini, MiniMax ,
  do not show everything at once, but let the carousel swipe
  through
